A jury sitting in a San Francisco court this week, found Miss Lavinia Perry of San Carlos guilty of manslaughter. As a result of the accident, Edward Perry, brother of the girl, who was riding with her at the time, and Mrs. Anna McCutcheon, who was standing near the other machine were killed. WHEN THE EAGLE FLAPPED ITS WINGS

Americanization Day last Thursday proved too much for the brass eagle which guards the south west corner of the court house dome. In the excitement of the occasion, the great brass bird endeavored to fly and nearly lost one of its wings in the attempt. No one actually saw the great eagle stretch its metalic pinions and heard him screech, but that he did try to fly is a proven fact. In fact, one of his wings is still in a perilous position from the attempt, and will require several sticks of solder before it again spreads in its wanted fashion over the roof of San Mateo county's seat of justice.

DID YOU EVER STOP TO THINK

By E. R. Waite, Secretary Shawnee, Okla., Board of Com.

THAT you will always find it to your advantage to buy from the business concerns of the home city. They can furnish you what you want and usually at a little less than you can buy elsewhere.

THAT prosperity for a city depends upon its industry and business being properly supported.

THAT the development of business for a city is not only a problem for the local business men but a problem for the entire citizenship; for prosperity for a community can only be gained by better business for the community.

THAT too many communities are handicapped by having too many citizens who earn at home and spend it elsewhere.

THAT some people say "BUY AT HOME" and then forget to do it themselves. What kind of a city would your city be if all citizens were like them.

THAT dollar spent in your city, makes your city grow.

EVERY CITIZEN MUST HAVE FIATH IN THE HOME CITY. IT TAKES FAITH TO MAKE A CITY GROW. SHOW YOUR FAITH—SPEND YOUR MONEY AT HOME.

Former Citizen Dies in the City

BIDS FOR WIDENING HIGHWAY OPENED BY BOARD IN SACRAMENTO

Bids for the widening of the State highway from Redwood City south to the San Mateo county line were opened this week in Sacramento by the State Highway Commission. The lowest bid was that of Freeman & Whiting, a Fresno concern, they offering to do the work for the sum of $115,491, as against the commission engineer's estimates of $126,805. The contract will probably be awarded within the next few days, according to an announcement from the office of the commission.

Playing Road Hog Leads to Arrest

G. H. Wilson of 385 Eighth street, San Francisco should have a highway of his own when he goes out to motor, according to the remarks passed concerning him by a half a dozen drivers of automobiles who were behind him on the way south from Colma. Wilson has been considered for the road hog prize by all of these drivers.

Wilson, it seems, was driving in the middle of the road when another car came behind him and signaled that it was about to pass. When the other car drove alongside Wilson speeded up and would not allow the other driver to pass, but slowed down again as soon as the other car drew in behind him. Another car, and then another tried to pass Wilson with the same result. A bus then tried to pass but the same tactics were used by Wilson as before with the result that the bus could not pass.

By this time the bus had reached the intersection of Broadway and the highway at Redwood City, where Traffic Officer Elgin Kreiss was located. The bus driver stopped and told of the way in which Wilson had been driving. While the bus was stopped the other drivers who had been road hogged by Wilson arrived and each told the same story. Kriess obtained the number of the car and swore out a warrant for the arrest of the driver.

Painters were at work this week repainting the interior of the Ryan Drug Co's Main street store. The store was badly damaged a few weeks ago when the building in which it is located was nearly destroyed by fire. The flames, which were in the upper portion of the building did not injure the drug store, but the water and ash damaged the paint to such an extent that it had to be repainted. The store managed to continue business however, through the fire and paint ing alike. There has been no cessation of trade.

MOTHER WINS IN A GREAT COURT BATTLE

After a sensational court contest, Mrs. Hazel Junco of San Francisco was awarded the custody of little Helen Bernice Moran of Belmont. Upon the verdict being rendered, Mrs. Thomas Moran, who has raised the little girl since she was a baby, was overcome with grief and had to be assisted from the court.

According to the testimony in the case Mrs. Junco was the mother of the child, and had been paying for the keep of the little girl, who was secretly given to Mrs. Moran to keep when the mother was a young girl. Mrs. Junco's husband recently learned of the little girl, and insisted that she brought to their home and raised like one of his own children. When the mother asked for the child, however, Mrs. Moran refused to give her up, and the litle girl, who did not even know its mother by sight, refused to leave the woman whom she had come to love as a mother. The court fight ensued.

Mrs. Moran, in seeking to keep the little girl, sought to show that the mother was not a fit person to keep the child, but Judge Buck who had previously had the home life of the Juncos investigated, overruled the charge and quoting the Biblical passage of the fallen woman, stated that because a woman once made a mistake was no sign that she was sinful.

Mrs. Junco has two children by her husband, and according to testimony of Mrs. Haw, matron of the juvenile home, they are being raised in the most exemplary manner.

The mother of the child was represented by Attorney James T. O'Keefe of Redwood City, and Mrs. Moran was represented by Attorney A. Alexander of San Francisco. The case was well argued by both sides and was fairly decided. Mrs. Moran, however, had the sympathy of the entire court in the loss of a child whom she had come to look upon as her own.

REV. OWEN SERIOUSLY ILL IN SANTA CRUZ

Word was received Thursday that Rev. Harry Owen of the local Methodist church, was taken suddenly and seriously ill while on a visit to Santa Cruz. La Honda Fire Destroys Buildings

A fire which destroyed property conservatively estimated at $10,000 at La Honda was discovered at about one o'clock in the morning on the property of the La Honda Stock Farm. The fire was discovered in one of the main barns of the comvany by Frank Silva, superintendent of the ranch. The barn was filled with loose hay, and burned fiercely. Seeing that the flames were not to be controlled by any means at hand, Silva phoned Deputy Fire Chief Laracou, who immediately sent out for La Honda with a squad of local fire fighters.

When the firemen had reached the scene of the fire three buildings of the farm were beyond saving. The fire destroyed beside the buildings several hundred tons of hay and grain. The La Honda Stock Farm is one of the largest stock ranches in the county, and has a wide reputation for the fine cattle raised.

PREFERS JAIL TO PAYING FINE OF $10

"You can either pay a fine of $10 or go to the county jail for five days" was the word of the law as regards G. T. White a would be real estate agent of Atherton. White took the five days in the county hotel. The cause of the incarseration was this: Atherton in order to protect the residential district passed laws limiting the business district to certain sections. White, who claims to be a real estate agent from the southern part of the state arrived in Atherton with a fixed and steady purpose to start a real estate office, and taking a house in the residential section of Atherton, opened a real estate office in it.

White was arrested when he refused to abandon his idea of running a real estate office in the residence district, and was taken by Deputy Marshall Celer before Recorder Classen who made the prophetic announcement which opens this item. White stated Atherton would never get $10 out of him, and took the five days.

SMELT INVADE REDWOOD CREEK

This week thousands of smelt came into Redwood creek from the bay, and the little silver fish could be seen shimmering in the water almost up to the bridge. It is very seldom that smelt come up Redwood creek, except in the boats of the Italian fishermen, who often moor their boats at the bridge with a cargo of the delicious beauties.

The School Dedication Great Affair

The people of Redwood City and all the surrounding towns as well as the more distant parts of the county showed their interest in the schools and their appreciation of the courtesy of the Grand Parlor of Native Sons last Sunday by attending the dedication ceremonies of the new Sequoia Union High School.

The platform was occupied by the grand officers of the Native Sons, trustees of the high and grammar schools, the city and county superintendents of schools, the principal and architect of the high school, representatives of the board of supervisors and board of education, and the girls' glee club of Sequoia.

Following the program, which was held in the new auditorium, the grand officers laid a bronz plate in the floor of the vestibule to the main building. This plate on which is inscribed "Dedicated to Truth, Liberty and Toleration by the Native Sons of the Golden West," was appropriately set in place by cement gathered from all the cement plants of California, and mixed with sand and gravel taken from every county of California and water from all of the missions of the state.

The officers of the grand parlor who took part in the ceremony are: Edward J. Lynch, Grand President; Wm. J. Hayes, Junior Past Grand President; Fletcher A. Cutler, Grand First Vice President; Chas. A. Thompson, Grand Third Vice President; John T. Regan, Grand Secretary; Jas. A. Wilson, Grand Trustee and John S. Ramsey, Grand Trustee.

Addresses were given by Grand President, Edward J. Lynch of the Native Sons, Hon. Fletcher Cutler, Walter Kellogg, Principal A. C. Argo, Mayor Henry Beeger, Roy W. Cloud, and Rev. R. J. TWO MEN FACE CHARGE OF LIQUOR SALE TO STUDENTS

Facing serious charges as the result of alleged liquor sales to an 18-year-old boy, John Olivera and Joseph Gosetti of this city are at liberty on bail, following their arrest in a pool hall, alleged to be owned by Olivera in the Five Points district of Redwood City. Gosetti is said to be an employee of the place.

Both were taken into custody on complaints sworn to by a Redwood City high school student, it is said. Officers Eddie McAulice and E. E. Kreiss of the Redwood City police took the men before Recorder Albert Mansfield who fixed the bail at $300 in each case.

Olivera and Gosetti are among a number of men suspected of having supplied liquor to students in Redwood City, according to authorities of the Sequoia Union High School, whose investigations are said to have led to the arrest of the pair.

WOMAN'S CLUB SHOW IS GREAT SUCCESS

The minstrel show given by the Redwood City Woman's Culb last Saturday night was a decided success. The entire performance was carried off by home talent, and was a burst of laughter from start to finish. Much credit is due to Edward Kilbourn for the planning and rehearsing which made the show a success that it was. All parts were well carried and the musical numbers were much enjoyed.

James Hedge acted as interlocutor and was supported by the following cast: end men, Clif Woodhams, Wm. Dusel, A. H. Audifred and Harry Laflin; Negresses, Mrs. Eric Thompson, Mrs. Harry Laflin, Mrs. H. Clattenburg, Mr.. J. H. Martin, Mrs. A. Burnett Hood, Mrs. Frank Webber, Mrs. J. W. PRESIDENT COOLIDGE AND THE SOUTH

President Coolidge went a long way towards winning the hearts of the people of the South last week when he praised the valor and bravery of the men who wore the "gray" in our great Civil war. Mr. Coolidge was addressing a body of old confederate soldiers and their families when he told his sentiments, and his remarks created a fine feeling because he is the first New England president since the war.

One of our poets wrote:

"They have banished their anger forever
Who have laureled the graves of their dead."

We believe that President Coolidge was sincere in every word of his address. He was not talking as a politician, but as a good American citizen. There is no reason why the people of any section of the United States should have any feeling against the people of another section. Practically every man who fought in the great conflict thought that he was fighting for the right. And my, but they were all good fighters. There were wonderful leaders on both sides and the boys in gray let the boys in blue know that they could "carry on" every step of the way.

THE DEDICATION OF OUR SCHOOL

The Grand Officers of the Native Sons of the Golden West dedicated our fine new high school Sunday and the sentiment of the dedication was "That education, service and toleration might be fostered."

It is to be hoped that these sentiments will be the guiding factors in the training of those who enter Sequoia, for "Service" should be the object of every educated citizen, and every good American is tolerant.

The dedication ceremony was in line with the policy of the Native Sons in fostering a love for our State and its traditions. The memorial tablet was laid in sand and gravel obtained from each of the fifty-eight counties of the state. The cement was gathered from each of the cement plants in California, and the water which caused the union of the sand, gravel and cement was taken from a supply obtained at each of the missions which meant so much in the early days of our State.

California is wonderful in her generosity to its children and the Native Sons are doing a good work in keeping the memory of our great men fresh in the minds of our people.

We trust that EDUCATION, SERVICE and TOLERATION will always be the watchword at Sequoia.

MEMORIAL DAY

Yesterday was the sacred day of our year. It has been set apart from all the rest of the days in order that we might think about our dear ones who left us and "have gone across the way."

Those of us who could, decorated the graves of our dear ones. It took many of us back to the olden times when we went out to the cemetery with mother or father to put flowers on grandfather's grave, and now many of us are fathers and mothers and we took our boys and girls with us so that they might have the lessons which we had.

Memorial Day is a good day for it takes us back to the best days of our lives, and any sentiment that causes us to think of good things is well worth fostering.

OUR ROADS

One day this week we started early for the coast-side. Our way took us through the redwoods and La Honda. It was beautiful at seven in the morning. The birds were hunting their breakfast. A rabbit here and there was nibbling in the shade. We even had to stop the machine and drive a gray squirrel, who was munching an acorn, off of the road. We had never had to do that before as the big bushy-tailed fellows are usually ready to frisk away at the sound of a motor. All of the valley lay below us in a golden glory. Up above us the trees were blue in the morning glow.

We passed an oil wagon that was straining under its heavy load, and a litle further on we passed a three-ton truck groaning and complaining because of its ten-ton load.

On every side was beauty. Near La Honda a delicious fragrance of bacon and coffee filled the air, and while their companion cooked, two fishermen were busy catching trout.

Later came the view of the ocean, and out there beyond the breakers a great liner went serenely on, carrying its list of passengers up to San Francisco.

Truly it is fine to ride out in San Mateo county in the early morning.

S. M. JUNIOR COLLEGE MENS CLUB DANCE

By Lynette Faure

Last Friday night, May 23rd, the Junior College Men's Club, a recent college organization, gave its first dance.

The dance was held in the San Mateo Masonic Temple. The music was given by Sidney Lewis' Club orchestra, a popular well known orchestra on the peninsula.

The dance was given as a result of the profits, made on the ice-cream booth run by the boys at the County School Day celebration and was close to $60.

The boys wished to make enough profit on the dance to furnish their prospective club house, which was an old fire house in Hayward Park, and recently used by the Boy Scouts of San Mateo. They hope to buy or rent the place from Mayor Smith of San Mateo.

The dance continued fro- 9 to 12. Mr. Taggart, Mr. Pearey and Miss Allison acted as patrons. The affair was very successful from the guests' point of view. Just how much the Men's Club netted as profits is not known as yet.

SENATOR JOHNSON AIDS POSTOFFICE BILL

The following telegram sent to Postmaster John Cowgill of San Carlos by Senator Johnson was forwarded by him to this office:

"Senate has just passed bill increasing compensation of postal employes. I was glad to aid all I could in its passage."

The telegram was in response to a letter addressed to the senator by the San Carlos postmaster, urging him to support the bill which had as its purpose the increase of pay for postmasters in small offices.

FIRE PREVENTION NEED SHOWN OUR CITIZENS

That fire prevention is a necessity, not a fad; a science, not a theory, was brought home to the people of Redwood City last Tuesday, when the local fire department put over "Fire Prevention Day" in a manner which not alone did credit to the department, but what was more, fundimental for the community, in a manner which caused people to think, for the time at least, of their own fire dangers. The entire program for the day was a concerted effort on the part of the fire department to get the people to realize the dangers that are in every house, and are met with every day, but are unsuspected.

The day was commenced by a meeting of students of the Sequoia Union High School in the school auditorium in the morning. Jay Stevens, State Fire Marshall, addressed the meeting and told the children of the ways in which they could save fire risks by being careful.

At noon Stevens addressed the Kiwanis Club at the regular Tuesday luncheon at the Sequoia Grill. Here he impressed upon the assembled business men of Redwood City by illustration and example, the need of individual precaution.

In the evening a full house gathered to hear a program at the new auditorium of the high school. At this time Fire Chief Mark Ryan introduced F. K. Towne, who acted as chairman of the evening. Henry Beeger, mayor of Redwood City, addressed the citizens in regard to the support that they should give the fire department in the carrying out of their plans for a safer city. He was followed by City Attorney Bert Mansfield, who delivered a short and interesting talk on the functions of Redwood City's three fire ordinances. Chief Ryan spoke with praise of the men of the local department, all but two of whom were volunteer and unpaid.

Chief Murphy of the San Francisco department praised the work done by the local men, and proffered the use of the San Francisco department in any emergency, while Chief Sam Short of Oakland, addressed the assembled citizens, telling of some of the work of a fire department.

The last to speak was State Fire Marshall Jay Stevens, who after telling of some interesting episodes in his career as a fireman, asked that Chief Ryan stand beside him on the platform. He then, much to the surprise of the local chief, presented him with a gold badge of a deputy state marshall. Ryan, said Stevens, is one of the best known chiefs in the state, and he told of positions of responsibility to which he had appointed the local chief, such as investigator of the Oakland Fire Department. Ryan had also been given the confidence of the other chiefs of this county, said Stevens, by being appointed head of their county organization.

The addresses were followed by several reels of motion pictures, supplied through the courtesy of Matt Harriss and Charles Merrill. These pictures showed various destructive fires in different parts of the country, as well as some slight carelessnesses that may result in serious losses. The evening was completed by a free dance in the gymnasium of the school.

Lee Pipkin has purchased the Nick Lund place on the island.

Miss Ethel Fox, formerly of Redwood City, was in town Saturday.

The committee on exercises has decided on James Hedge, Hjalmar Holmquist and Hall Ross of the high school to deliver fifteen minute speeches at the Fourth of July celebration. This is a little out of the ordinary, but the little innovation will be appreciated by the public.

John Weller, the accomodating clerk of the Union Hotel, San Mateo, spent the early part of the week in the city.

A contract for the magnificent Memorial chapel at Stanford was let by Mrs. Stanford last week. It will cost something like $160,000 when completed. The contracts awarded for the university during the past month exceed $200,000.

Miss Mae Casey of Menlo Park and James Hedge, both of the high school, successfully passed a rigid examination in English 1B at Stanford last week, entitling them to admission to the university next term.

TRUCK LOAD OF WINE COSTS DRIVER $500

Sam Cardera, arrested several weeks ago by Traffic Officer Elgin Kreiss on a charge of illegally transporting liquor through Redwood City, was tried by a jury of local men last Tuesday and found guilty in the court of City Recorder Mansfield.

Cadera, who was represented by Attorney Edward O'Day of San Francisco, told conflicting stories of the manner in which he came into possession of the liquor and of the place in which he had obtained it. It was developed from the evidence that Cardera was at truck driver working for a ring of bootleggers of San Francisco, headed by a man named Martinelli. When arrested, Cardera stated that he had a permit for the transportation of the liquor but upon being asked to show it, said he had forgotten it.

After his conviction on the charge of illegal transportation of liquor, Cardera plead guilty to a second charge, that of the illegal possession of liquor. The court fined the defendant $250 on each charge. Three 50-gallon barrels of wine were confiscated at the time of the arrest.

Several Runnymede people attended the dedication of the Sequoia High School Sunday afternoon.

JOHN WESLEY ISAAC IS NAME OF NEW EDITOR

We respectfully ask the indulgence of our readers for any short comings in this issue of the Times-Gazette. Our office has been terribly upset ever since Wednesday night when a son and heir made his appearance at the home of Editor John Isaac.

John is still up in the clouds and we do not expect him to become normal for a few days yet. In order to explain the situation we will have to relate an occurence that happened Thursday morning, following the great event. A customer approached John and inquired about advertising, and asked him the rate.

John, his face beaming with smiles, replied: "He weighs eight pounds."

The customer, somewhat abashed said, "I only want a classifed."

"Classifed," said John, "Well he is he's a boy, and we have named him John Wesley."

Another member of the staff, seeing the confused expression on the customer's face, hastened to John's relief, and gave the desired information.

The situation explained, the customer joined in congratulations and well wishes for the little man.

Mother and babe are doing nicely and as for John, he's alright, but for the next few days will be perhaps a little exciteable.

Tax Burden of the State

ABOUT one-tenth of your bill for gas and electricity represents taxes paid to the State and Federal governments.

Like the manufacturer, the merchant, the farmer, the builder, and the landlord, the public utility company must pass the tax load to the consumer or go out of business. The consumer really carries the tax burden.

We are all consumers. Therefore everybody pays taxes in proportion to what he consumes.

Power companies, courting the good will of the public, dislike to incur unmerited blame for higher rates caused by increase of taxes.

Cleaning Without Odor by the F. Thomas Process
Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.
With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.
Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

DOES YOUR HUSBAND USE A QUILL PEN?

You laugh at such an absurd question—and yet his grandfather used one. Times have progressed, that is true, but if the quill pen was good enough for your husband's grandfather why is it not good enough for your husband? Do you not still keep house in pretty much the same manner as your grandmother did?

Don't you scald your hands in the setaming dishwater Don't you toughen and callous your hands and fill your lungs with dust by using a broom? Don't you walk from the stove to the ironing board and the ironing board back to the stove to keep your iron hot Don't you do the many, many household drudger in very much the same manner as your grandmother did?

The science of housekeeping has advanced fully as rapidly as the science of business and industry. Have you kept pace with it?

You want your husband to be a success. To do so he must be up-to-the-minute in his methods. Are you keeping his home modern, or must he go forth from the dusk of a home of yesterday into the glare of the business world of today and be blinded by its brilliancy?

And you not only owe it to your husband—you owe it to yourself to keep up-to-date. The old methods were the ways of drudgery and toil; the ways of coarsened hands, aching backs, tired feet. The new methods are the ways of speed, ease and efficiency; the new way means a cleaner, more neatly kept home, and a healthier, happier wife.

The modern way to keep house is the electric way. It is the quick way, the simple way, the healthy way, and the efficient way.

Electrical appliances will perform all the necessary drudgeries and will besides, conveniently do many of the little duties about the house. They will give you time for shopping, time for indulgence in the many pleasures women love, and time for giving to your home that extra care and those added touches of individuality which make it truly attractive.

And, as the days of worn-out housewives have passed, so have the days of climbing upon chairs to attach appliances to a light socket. Today there is the electrical convenience outlet which is all that the name implies. Its convenience lies in the fact that you can have one put wehereever you find that you frequently use electrical appliances.

These convenience outlets resemble the small brass plates which surround your electric light buttons and in a similar manner, they fit into the wall baseboard, or floor. When you desire to use an electric appliance you just attach the cord to the nearest convenience outlet and your appliance is ready for use—no light need to be removed and no unsightly cords are hanging from the chandeliers.

This is the modern, healthy, and efficient way to keep house, and is in keeping with the progressive business methods of your husband.

Your happiness and his happiness depend upon your health and the maintaining of your interest in the life that is going on about you. Household drudgery is powerful. It envelopes and overpowers. It saps vitality. It crushes beauty. It kills interest. Do not get into the rut of Household Drdudgery. There is an alternative—do your work electrically.

ICE ACTS LIKE BLOTTER; ABSORBS HEAT

People are accustomed to considering heat and cold as two different things. As a point of fact, cold is merely an absence of heat, and is produced by absorbing the heat from the object to be cooled. Thus when ice is placed in a refrigerator it does not give off cold but absorbs the heat from the enclosed air and from the foodstuffs placed near it. In other words, it takes up heat in much the same manner as a piece of blotting paper takes up moisture.

While this process goes on, the ice melts But as soon as the temperature inside the refrigerator has been reduced to the temperature of the ice itself, melting stops. And as long as there is no more heat admitted to the refrigerator, melting will not occur. It is impossible however, to construct a refrigerator so air tight that a small amount of heat cannot find its way in. Moreover, a certain amount passes through the walls of the refrigerator. This is immediately absorbed and causes a gradual melting of the ice.

But the main entrance of heat into the refrigerator is the door itself. Every time it is opened, the temperature of the refrigerator is raised; and it is the absorbtion of this heat which causes the greatest amount of melting. Housewives can affect a great saving of ice by opening the refrigerator door as few times as possible, and by seeing to it that the door is always tightly closed except when food stuffs are being placed in the refrigerator or removed from it.

If you are a self-made man, let somebody else brag about the workmanship.

Bobbed hair has also improved the appearance of the barbers.

NEWS OF MENLO PARK

Mr. and Mrs. C. F. Slinger, their young son, Chester, and Mrs. Slinger's brother returned this week from their old home in Chicago, where they have been visiting for the past two months. They saw many interesting sights, but are glad to be back in Menlo Park, the land of sunshine and flowers. Mr. Slinger says business in the east is dull and the weather is very hot. Mrs. Slinger's brother, to show his appreciation of Menlo Park, purchased a lot here two days after his arrival. He intends to make this place his future home.

Contracts have been let for twenty-five new homes to be erected in Stanford Park at once. This suburb of Palo Alto is experiencing a decided boom. People there are already talking incorporation. It is their ambition to annex Menlo Park.

Mr. Boyd Braden, the moving picture promoter, is soon to erect a $15,000 home on MacBain avenue, the fashionable part of Menlo Park.

Andrew Clunie is shortly to build a handsome home for his daughter, Helen in Stanford Park, adjoining his own palatial home.

Menlo Parlor, Native Daughters of the Golden West, celebrated their seventh anniversary by a dinner in a local cafe. Fifty members were present to enjoy the delectable meal. Witty speeches were made by the beautiful daughters and repartee was the order of the hour.

A band of Gypsies has located in town, to the utter discontent of the citizenry. It is to be hoped the Gypsies will emulate the Arab by folding their tent in the night and as silently steal away, far away.

Arthur Sharp, the well-known millionaire hotel man of San Francisco, has leased the General Devol home on Santa Cruz avenue for the summer. The general and his wife are making a tour of Europe. Sharp and Rolkin conduct a large number of hotels in the city, and among them being the Argonaut. Mr. Sharp only a few years ago was an inspector in the custom hervice on the water front. He has had a meteoric career as a huccessful business man, rising from small beginnings to a millionaire. His success has not turned his head, however, for he is the same genial, considerate and magnetic Arthur Sharp. His partner, Edward Ralkin, departed yesterday for a tour of Europe. Mr. Sharp may decide to permanently locate in Menlo Park.

The heirs of the J. K. Prior estate have petitioned the Superior Court of San Francisco to sell all the real property of the estate. This may mean the disposal of the holdings here, and may result in the partitioning of the property.

About thirty young men from here attended the card party held at Elmhurst last week under the auspices of the Catholic church there. Father D. J. Kelly, pastor. The former rector of the Church of the Nativity heartily greeted his former parishioner. All report in having a delightful time.

Mr. Annie Ahlert, her pretty daughter, Catherine, and her sister, Mrs. C. A. Brady were here Thursday to decorate the graves of their departed relatives in Holy Cross cemetery. They are former residents of Menlo Park.

From all portions of the bay counties people came to Holy Cross yesterday to place flowers on the graves of those who passed over the Great Divide. The custom of remembering the dead on Decoration Day is now becoming a duty rather than a sentiment. It is well that it should be. It is proper that the departed should be remembered at least once a year.

The Woman's Exchange offers a fine assortment of home-made pies and cakes today. Try these delicious viands made by an expert.

The marriage of Miss Dorothy Lampard and Peter Dorsi of Colma will take place tomorrow in Grace church, South San Francisco. In honor of the approaching nuptials, Mrs. W. H. Weeden gave a miscellaneous shower Monday evening at the Trinity Episcopal Church parish hall. Forty guests were present and the bride-elect received many beautiful gifts. The pretty bride-to-be is a former pupil of St. Joseph's parochial school. Her father for many years had charge of the Donohoe estates and is now superintendent of Holy Cross cemetery. The family resides near Colma.

Mr. and Mrs. Selah Chamberlain and children will close their Menlo Park home next week and leave for New York. They plan to sail June 19 for Europe, where they will remain indefinitely.

An old-fashioned dance will be given on Tuesday evening, June 10, by Menlo Parlor, N. D. G. W. Good music is assured for the occasion.

Mrs. John MacBain, wife of Supervisor MacBain of this district, returned to her home Thursday from the Mills Memorial hospital, where she has been for the past eight weeks. Mrs. MacBain is much improved in health and her friends are rejoiced to see her around home again.

On the afternoon of Friday, June 6, the Las Lomitas Parent-Teacher Association will hold its last meeting for the term. There will be no speaker at this meeting, but a large attendance is desired, because there are several matters to come up for discussion and reports on recent activities will be given. The installation of officers for the coming year will also occur.

POWER HOUSE NOW UNDER CONSTRUCTION

"Architect's sketch showing Pacific Gas and Electric Company's Pit River Plant No. Three and part of that company's hydro-electric development on the Pit River in Shasta County. This plant with an installed capacity of 108,000 horsepower, is being built at a cost of $12,312,600.00 and is expected to be in operation early in the fall of 1925."

The funniest sight is a two-horse brain power trying to run a fifty-horse-power job.

Poor relations are any that we have with Russia.

Nobody has as great scorn for the "practical politician" as the impractical one.

When a man has a big paunch, no brains and a silent tongue, he can always "get by" on his dignity.

BIDS ON BAY HIGHWAY TURNED DOWN BY COMMSSION

The State Highway Commission last Monday met in San Francisco and opened bids for the construction of the first unit of the new bay shore highway. The only bid received was from F. Rolandi of San Francisco, whose bid for the building of the road was $306,701. This was considerably in exces of the estimate furnished by the commission's engineer, which was $256,212.50. The commission took the matter under advisement and met again on Wednesday, at which time the bid was thrown out as being too high. The unit of the highway now under consideration will extend between Broadway station and South San Francisco.

A Jury is composed of 12 persons who wonder how soon they can get away and whether they will be able to guess right.

Why Shave With Cold Water?

WHEN a turn of the faucet will give instant hot water from a gas water heater. Cold shaving water has upset more households than one; a cold bath instead of a hot one has wrecked many good resolutions.

Plenty of hot water for shaving, bathing, washing, laundry, can be provided easily, instantly, economically in any home by simply installing an automatic gas water heater with the present plumbing system.

Let your dealer demonstrate to you both the automatic instantaneous and storage tank types and then have him install the size you need.
